Further Contraction of Dealings Reported Yesterday.

GOLD SHIPMENTS NOT FEARED

Western Securities Buoyant-A Rumor of the Enlargement of Rock Island Scheme to Cover Other Lines. Atchison's Net Earnings.

(By Associated Fress.)

NEW YORK, July 39.—There was a further contraction of dealings in to-day's stock market, and a decidedly hesitating and fluctuating tone during the day. Professional traders were watchful for a turn in the tide of the market and kept prices fluctuating irregularly over a small (By Associated Press.)

range during the greater part of the day There were no developments of great im-

The additional engagements of gold had been fully expected, and, in factured out to be rather smaller than had been feared. There was evidence of continued liquidation on a large scale during the forenoon, which was attributed to the Western party whose operations have come to prove a powerful influence in directing the course of a large speculative following in Wall Street. The cessation of this liquidation was followed by scattering demonstrations of strength. The St. Louis and San Francisco securities were very buoyant, which caused a revival of rumors that they are to be taken in under the Rock Island plan. The semi-official intimations of the plan of allotment of the new securities does not provide for this absorption. The movement served, however, to offset to some extent the depressing effect upon the stock market, which has been caused by the discussion of the reports of the Rock Island plan. The rise in Chicago and Eastern Illinois and in Chicago and Alton, and the firmness of Illinois Central seemed to be related. The abrupt rise in New York Air Brake is characteristic of that stock and was without much sentimental effect elsewhere.

excited in the last hour on the varying reports current of the scope of a St. Louis Eastern Illinois consolidation. The closing, however, was irregular.

The generally favorable tenor of the Weather Bureau's weekly crop summary and the favorable weather reports of today were helpful factors in the market. The continued tranquillity of the money market in face of the gold exports had a reassuring effect upon sentiment. The sub-Treasury made a liberal disbursement to the money market, and advices from Sentile were received of a deposit of \$1.00,000 gold to be credited to New York.

Bonds were dull and irregular until the late rally in stocks, when prices stiffened. Total sales, par value, \$2,834,000. United States old 4's, registered, advanced ¼ per cent, on the last call.

The total sales of stocks for the day were 649,600 shares.

NEW ORLEANS, LA., July 30.—COTTON—There is a better line offering in the market for spot cotton; quotations unchanged.

The future market was dull and featureless throughout the day. Texas rainfalls continue unabated and gave rise to grave apprehension as to thep resent and future welfare of the crop in that State, but other portions of the belt, and more particularly the Atlantic coast, are being greatly benefited by the rains, offering more than a counterpoise to the questionable damage being done in Texas. The uctuations during the day were very slight, the list at 3 o'clock showing a net loss of 5 points on July and a net gain of 102 points on all other positions.

COFFEE MARKET.

NEW YORK, July 39.—COFFEE—The market for coffee futures opened steady with prices unchanged to 10 points higher, the advance occurring in near months on covering. General bearish foreign markets caused firmness. The market closed with prices net 5 points lower to 5 points higher. Total sales 51,250 bags.

CHICAGO MARKET.

CHICAGO MARKET.

CHICAGO, ILL., July 39.—Unsettled by the closing operations in July corners all the grim markets to-day were ragged, yet withal rather dull. Despite the fact that a marginal price of 45 cents was put on July new oats yesterday, the bulls in this deal were very stubborn and sold almost nothing, indicating the probability that the July oats corner will have to be settled in the open pit to-morrow. In other options of this and other grains, bears had the whip-hand early and pressed prices down. Covering for short accounts, a developing speculative and export and estimated curtailed shipments to this center, however, checked declines in the new crop deliveries and put frsh 'vigor in the July deals.

At the close July wheat was 1%c, higher; September wheat ½c up; July corn 2½c, higher; September coats ½c, up, and July oats 3c.
